Parking Information Sheet 2024

Butterdome Craft Sale

General Information

Paid parking is available onsite at the Butterdome and is managed by the University of Alberta (UofA) Parking Services. The university does **NOT** offer multi-day parking passes for exhibitors participating in events onsite (these are reserved exclusively for students, faculty and staff at UofA); spaces cannot be 'reserved' by pre-paying in advance of your arrival on site. If you pay in advance through the **HonkAPP** (see below) and the lot is full upon your arrival, no refunds will be issued by UofA Parking Services, and you will lose any fees paid.

As a courtesy to customers attending the show, we ask exhibitors to leave the spaces closest to the entrance available. **Varsity Parking** is exclusively reserved for exhibitors with oversized vehicles and trailers; all other vehicles will be refused access to this lot.

IMPORTANT There are **no** elevators located in any of the underground lots, they are stair access only. All parking areas are available on a first-come, first-served basis **only**.

The daily rate parking fee is calculated from 6 a.m. to 6 a.m.

Payment Procedure

All vehicles/trailers must **PARK FIRST** then **PAY** on a **DAILY BASIS**.

There are two (2) payment options available:

OPTION 1

Manage your parking payment(s) through the **HonkAPP**. This method enables you to search and pay for parking from a phone, tablet or computer.

Instructions:

- 1) Download the **HonkAPP** from [GooglePlay](#) or the [App Store](#).
 - a. *No smartphone? No problem! Access the Honk interface from any web browser at honkmobile.com.*
- 2) Set up your account. You can add as many vehicles/trailers and payment sources as you like to your profile.
- 3) Use the **HonkAPP** to find and pay for your parking at U of A each day.

OPTION 2

Pay at a **U-Park Pay Station** located in each parking lot. With this method, input your vehicle/payment each day at the onsite machine.

Instructions:

- 1) Take note of the license plate number for your vehicle/trailer, you will need this information.
- 2) When prompted, enter your license plate number at the **U-Park Pay Station** and select the amount of time you would like to park.
- 3) Pay with a credit card **or** coin.
 - a. *No change is provided if paying with coin.*
- 4) You do not need to place anything on the dash of your vehicle; the license plate number entered becomes your permit once paid.

For more information please refer to the UofA Parking Services website [here](#) or contact the Parking Services team directly at 780.492.PARK (7275).
